

## How to Create Clipart in PowerPoint

1. Find a picture that you would like to use.
2. Use shapes to **recreate** the picture in Microsoft PowerPoint.
3. Change the size and colors as you like.
4. "Select all" under the editing tab, right click and "group." This step will make all selected shapes into one image.
5. Save the image to your computer.
6. Share!

Model  
(Example)

My Creation

Scribbled lines are used to form a closed figure for the hair.

**The shapes I used to make the clipart (above):**

The oval shape is used for the head and eyes.

This line is used for the nose and mouth.

This smaller circle is used for the hair bow.

Change the color and put the shapes together to create a person.

This triangle is also used for the hair bow.
