

## How to Create a Project

1. Open Google Slides, Microsoft PowerPoint, etc.
2. Create a title page about a topic.
3. Choose the **standard “I can” statement** that relates to your topic and include it in your project or in the description of your project.

For example:

4.NBT.1: I can add and subtract whole numbers (4<sup>th</sup> Grade Standard, Numbers in Base Ten Skill).\*

4. Make sure you **create** an investigation for students to apply skills and concepts in new ways. Also include instructions and a rubric.
5. Optional: As a bonus, you may even create question and answer slides.
6. You may include original pictures, models, photographs and/or clipart.
7. Make sure you double check your work and have your teacher double check your work to ensure it is correct.
8. Save the document.
9. Share!

\*Standards can be found at the link below:
