PURPOSE TO TEACHING

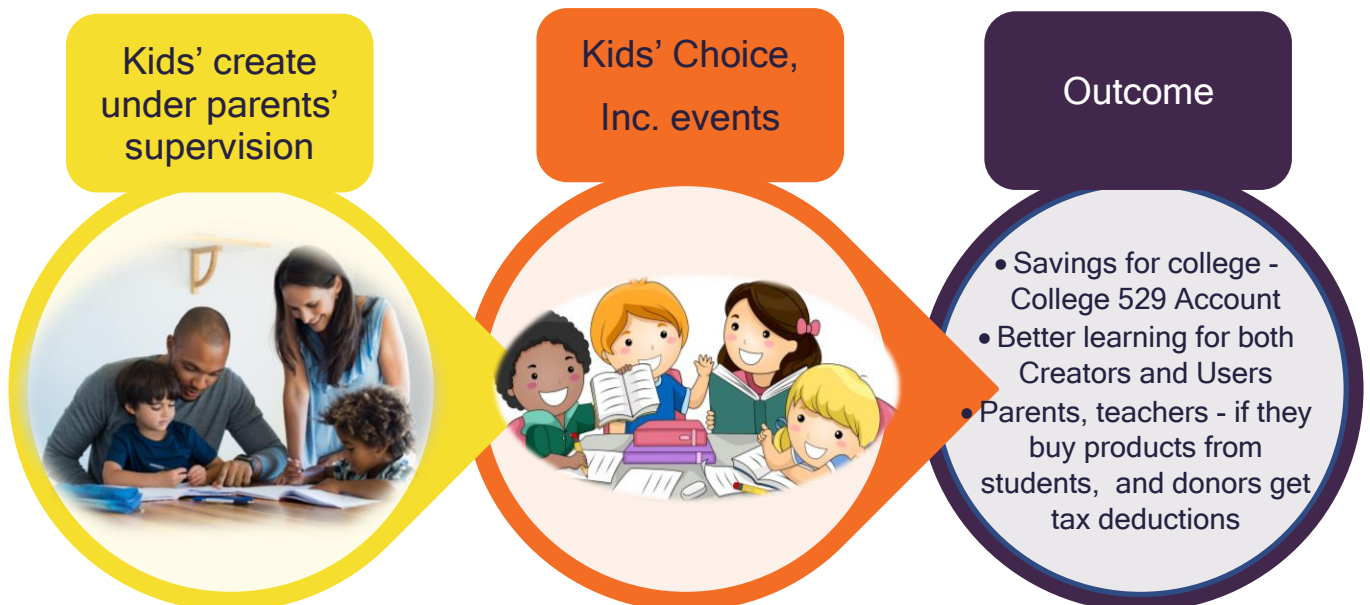

Ms. Shalicia Thomas
Founder & CEO

As a teacher, I am passionate about working with children of all ages and backgrounds. I have worked with students some of whom are wealthy while others would struggle even for the basics, forget about higher education. It's amazing to see the excitement and energy of these students in finding solutions to challenges. They are always willing to try something new and come up with some unique solutions. Kids' Choice, Inc. is an idea inspired by these enterprising students. It is a platform where kids can create value from their work and experience, to help other kids learn. All under parents' supervision.

We thank all our patrons in supporting us so far and hope for continued support as we grow in the coming years.

"Everyone has a story to tell, something to give, something to achieve, and some way to make a difference." - Shalicia Thomas

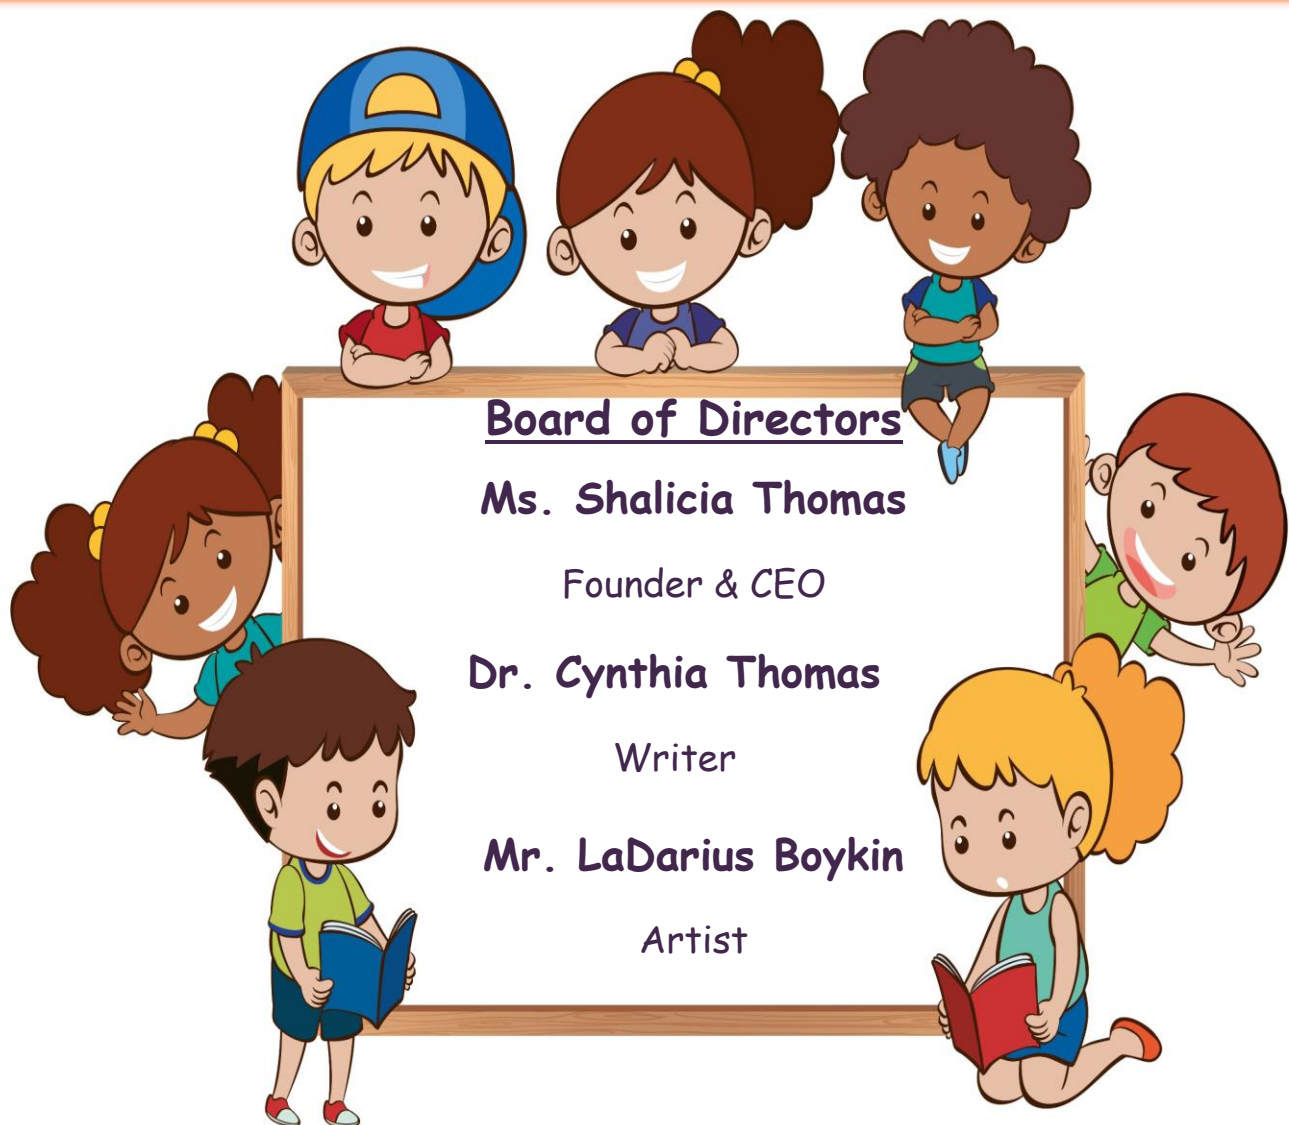

Kids' Choice, Inc. is a 501 (c)(3) non-profit online portal for students. Students - Creators, can monetize their educational content on this platform while helping other Students - Users, learn. This is a family-oriented platform for students to navigate through their financial and learning challenges.

HIGHLIGHTS OF 2018
