

How to Create a Game

1. Open Google Slides or Microsoft PowerPoint.
2. Create a title about your topic.
3. Choose the **standard “I can” statement** that relates to your topic and include it in your game or in the description of your game.
For example:
4.NBT.1: **I can** add and subtract whole numbers (4th Grade Standard, Numbers in Base Ten Skill).*
4. Choose a design from the options given in Google Slides or Microsoft PowerPoint. As an option, you may even **create** your own design.
5. Insert clipart, then re-size and re-position it as you like.
6. Insert textboxes for each word or set of words you wish to include in your game.
7. Insert **original work** into the table in each section to be used for task cards, recording sheets and the answer key.
8. Make sure you double check your work and have your teacher double check your work to ensure it is correct.
9. Save the document.
10. Share!
